| general | Walter Wood | The tax payer funded Department of Education needs to focus on teaching math, science, technology, and English. Business, economics and government need to be presented without political spin or bias. ." "Ethnic Studies" does not seem free of bias. It seems promoted by teachers with left wing political bias that does not belong in public schools. I refer to a Wall Street Journal opinion titled "CA wants to teach your kids that capitalism is racist" that describes this Ethnic Studies Model Curriculum. |
