**Subject:** [EXTERNAL] Antisemitism by the California Department of Education will NOT be tolerated

**BDS organizations** are trying to force the California Department of Education to put **Antisemitism, BDS, and antizionism** back into the curriculum.

After the CDE got rid of these **hateful** things from their curriculum, **BDS** is trying to put it back into a new lesson plan chapter that **no one is allowed to see** until the public commenting period is over.

As a parent in California, I demand **transparency** and make sure that the CDE stands by its pledge of **excluding BDS and antisemitism** from school lessons!
