California Department of Education,

I write to you as a concerned citizen. I find the draft of the ESMC regarding the erasing of the American Jewish experience to be inaccurate, misleading, discriminatory and scary.

Among other things ESMC singles out Israel-- the world's only Jewish state-- for special critique and condemnation.

If this ESMC was to be adapted it would contribute to further Anti-Semitism and hatred.

Please reconsider the proposed curriculum as it relates to Jews and Israel, and decline this draft ESMC.

Thank you,

Mike Cocos
