Subject: General comments

I strongly oppose the adoption of this proposal in Ethnic Studies for the reasons noted below:

- > puts forth changes to the word "history" to "hxrstory", (unnecessary
- > and silly); States an *opinion* that Capitalism is racist; States
- > another *opinion* that the Founding Fathers were all racist; it
- > supports the ridiculous notion that teachers have as much to learn
- > from students as the other way around and they are to be "co-constructors of knowledge"; and It contains Anti Semantic language throughout.

Serious changes need to be made to transition this proposal from opinion and indoctrination to solid pedagogy.
