

I need to find current information regarding the proposed multi-cultural school curriculum. I have recently learned from two members of the CA State Legislature's Jewish caucus that the portion of the curriculum presenting information about Jews is at best inaccurate and patently leaning toward openly anti-semitic. As an educator for the past 52 years, including 30 of them at UC Berkeley, in education and as the author of a (ancient) book titled "Reducing Adolescent Prejudice," and as a Jew--WWII refugee--for the past 76 years, I am deeply and understandably concerned. Please direct me to a copy of the proposed curriculum and let me know who has proposed it and who supports it. My colleagues and I await your assistance. Thank you, Nina Gabelko
