Subject: Include Jews as a marginalized group in new Ethnic Studies curriculum.

It is wrong not to mention how Jews as a minority have historically been marginalized and also, to not show how the BDS movement against the State of Israel contributes to anti-Semitism, affecting Jews worldwide.

The Palestinian people deserve a voice and to protest economically against the oppression they feel by boycotting Israeli products, services and entertainment but a consequence is to marginalize Jews everywhere. Historically such tactics have led to hateful and murderous acts against Jews over and over again. Please be sure to include anti-Semitism and its consequences as part of a discussion of ethnicities and how boycotts further it.
