Subject: [EXTERNAL] Adoption of antisemitic Ethnic Studies Curriculum

To Whom it May Concern,

The Ethnic Studies Model Curriculum Draft currently being adopted is very much against the American value of inclusion for all. Why does the Draft find it necessary to erase the American Jewish experience, fail to discuss antisemitism, and reinforce negative stereotypes of the Jewish people? Is this the Islamic idea of fairness? I believe singling out Israel for criticism shows a terrible basis & will instill our students with prejudice and hate.
