Subject: Changes to curriculum

I was shocked to hear that the proposed ethnic studies curriculum will present capitalism as oppressive, BDS as a credible option and that mathematics is racist. Cis-heteropatriarchy? This is insanity. My husband, yes, you'd probably consider us part of the cis-heteropatriarchy, are planning on retiring in a state that is more free, less oppressive and, hopefully, more sane.

I homeschooled our sons for 6 years. Best decision I've ever made. You will be teaching California's students to be weak, triggered, infantile whiners. Fortunately, our sons were spared such exposure. Good luck.
