

Dear Ms. Chao:

Chair, Instructional Quality Commission California Department of Education 1430 N
Street Sacramento, CA 95814-5901

The anti-Jewish, anti-Israel bias of the proposed ESMC curriculum — including its implicit portrayal of Jews and Israel as part of “interlocking systems of oppression and privilege” and its endorsement of the anti-Israel Boycott, Divestment, Sanctions (BDS) movement as a form of “direct action” or “resistance” that students are encouraged to engage in — clearly exposes the politically motivated and directed nature of the curriculum and its drafters. Not surprisingly, more than one-quarter of the Model Curriculum Advisory Committee members, appointed by the State Board of Education to draft the ESMC, have publicly expressed animus towards Israel and its supporters, with some members openly supporting BDS. There is no doubt that these committee members have unconscionably used the state- 2 mandated curriculum as a tool for politically indoctrinating California’s high school students with antIsrael propaganda and encouraging them to engage in political activism against the Jewish state. As an educator and school administrator, you are surely aware of the dangers of allowing political indoctrination to substitute for rigorous scholarship and quality pedagogy. In the case of the ESMC, such political indoctrination impedes the flow of objective information about a complex topic of global importance and deprives students of critical knowledge for adequately understanding their community, their state, their country, and the world. This is certainly not what state legislators had in mind when they approved AB 2016 mandating the development of “a model curriculum in ethnic studies” for use in California high schools, with the primary objective of “preparing pupils to be global citizens with an appreciation for the contributions of multiple cultures.” Indeed, the political indoctrination at the heart of the ESMC does the exact opposite. Moreover, there is considerable evidence showing that the kind of anti-Zionist propaganda and activism promoted in the ESMC is strongly linked to acts of anti-Jewish hostility. Studies of anti-Semitic activity on college and university campuses across the country have consistently shown that schools with antiZionist expression and activity, including the promotion of BDS, are about three times more likely to host incidents targeting Jewish students for harm, including acts of harassment, vandalism and assault. Implementation of a model curriculum that includes the promulgation of such political, ethnic or religious hatred can’t help but threaten the safety and well-being of Jewish and pro-Israel high school students in the state. And California college and university campuses, already reeling from the alarming number of anti-Zionist-motivated acts of aggression perpetrated against their Jewish and pro-Israel students, will undoubtedly see dramatic increases in these anti-Semitic acts with the influx of the state’s high school graduates.
