Subject: Ethnic studies curriculum complaint

As a parent to children in the CA public system, I was devastated to hear about the new ethnic studies curriculum proposed by our department of education.

Teaching ethnic studies is a wonderful idea in my opinion. Teaching about different minorities, their struggles, contributions and so forth. Teaching about diversity and acceptance.

HOWEVER -

The curriculum proposed is offensive and excludes American Jews completely, at a time that antisemitism is at an all time high. AND promoting an antisemitic organization at the same time.
