

I am a retired teacher and I just read about the proposed ethnic studies curriculum for California elementary schools. I felt like I was in Germany in the 1930s when Hitler was indoctrinating the youth. I feel sick at what is being proposed. Anti-Semitic? Anti-capitalism? Pro-Iran? Anti-Israel? Capitalism is racist and is compared to white supremacy? Will we once again have concentration camps? Gas chambers to kill the undesirables? What I read was frightening. I hope the Department of Education will drop this plan or if it is adopted, I hope that courageous teachers will refuse to teach it. I know I would not teach it.
