Yes, include a lesson plan about Palestine. And make sure you include:

- When Rome conquered the Jewish people and renamed the land Palestine
- The Jewish people, who were identified as Palestinians prior to 1948
- Arab grand-mufti who sided with Hitler
- How the Palestinians were created by Arafat an Egyptian born terrorist in 1964
The fact that a mosque was built on top of the holy temple by Islamic colonists
- The 800,000 Jews who were forcibly expelled from Arab lands
- That BDS is conceived as a way to isolate and destroy the only Jewish nation

When you include these facts, we will no longer consider the Arab and pro-Palestine opinions as Jew hatred. Because the way it's worded now, it most certainly is.

As outlined by a multitude of callers, many of us are horrified that you're using our tax dollars on this deeply flawed, polarizing, and divisive venture. No one is happy with this outline.
