

I am very disturbed and concerned with the proposed curriculum for ethnic studies for the State of CA. It is blatantly anti-Semitic with it's derision of Israel and one sided approach to the very complex Israeli-Palestinian conflict, and feeds into stereotypes that are historically anti-Semitic tropes that have ZERO place in our education system. As a life long CA resident and taxpayer, I am ashamed that such a curriculum could even get approved to the stage it has. It must be stopped in it's present form and revised to accurately reflect the situation concerning Israel/West Bank/Gaza and be purged of it's obvious anti-Semitic bias.

Thank you,
