Madam Chao, I would like to thank you for your efforts to maintain a balance in ethnic studies for our students. The only way to overcome the bigotry and hate that is so prevalent in our society is to provide the best-rounded education possible to our children. Our world is nearly out of time to eliminate the unjustifiable discrimination that has seized control of otherwise rational individuals. Ethnic studies are essential; however, all ethnicities must be included in the study. Thank you for wanting to teach our children that no one group, race, nationality, or religion is more significant than another. Thank you for not endorsing the current ESMCD. Respectfully, L. A. Cava
