Subject: [EXTERNAL] Ethnic Studies Model Curriculum Draft

To Soomin Chao, California Instructional Quality Commission

I was astounded to learn that California school boards are considering adopting this anti-Jewish curriculum which is full of lies, accusations and false anti-Semitic tropes into the California high school system!

You are an ethnic person, would you want students to learn a bunch of false information about your cultural group which would result in people hating your group because of lies and false information about you?

This anti-Jewish curriculum must be tossed in the garbage. Teaching it would result in increased hatred, racism, dissent, and actions against Israel. I don't think that is what you want for California's high schools.
