**Subject:** [EXTERNAL] California school curriculum

Honorable Soomin Chao

The state of California is considering the adoption of a poisonous curriculum that promotes anti Semitism and anti Israel lectures.

As you know Israel is the only democracy in the Middle East where Christians Jews and Muslims are freely observing their religions with a freedom of expression.

Poisoning children with false information Is immoral.

I ask you to please use your influence to block this immoral act.

Thank you  
Raphael Elkayam
