

What are you doing to California's future?

This once great state deserves more from its educators.

After reviewing excerpts from the new curriculum I am aghast that our educators would push their political agenda. Trying to brainwash young minds is disgusting.

Capitalism, while not perfect, is the best economic system in the world. If capitalism is such a bad system, why are so many people trying to get into the United States? Why do so few leave the United States? Capitalism has done more to bring individuals out of poverty than any other factor.

The teaching that BDS (Boycott, Divestment, Sanctions) as it applies to Israel is "Criminal"! This is anti-semitic and does not explain Israel's side of the argument. You are training our youth to be young Nazis. How would you feel if your neighbor was throwing explosives into your backyard?

Why are we teaching young children about criminals such as Angela Davis, Frantz Fanon and Assata Shakur? These individuals are not heroes. The only thing we should be teaching young people about these individuals is that you do what they do and you go to jail.

I could go on with all the junk in this curriculum, but I think that you get the gist of my thoughts on the proposed curriculum.

May I suggest that we focus on teaching our young children the basics that will allow them to compete in the global economy.

In addition, I request that the educators take politics out of the curriculum or at least make it bipartisan.

John Swancoat
