Subject: [EXTERNAL] Education content - Armenians

Hi. I reviewed much of what is posted online regarding the ethnic studies curriculum. It seems quite robust. I did not see any of the education material regarding the Armenians, one of the largest ethnic populations of California. Although there was mention studying genocide, there should be specific mention of the Armenian Genocide, the first genocide of the 20th century upon which Hitler used as an example and inspiration prior to carrying out the Holocaust.

There should also be content regarding genocide denial.

Please let me know if you need to be directed to any historical literature.

Thank you,
