general	Erica Cox <i>Parent</i>	I object to the lack of the inclusion of anti-semitism. I object to many of the terms/ideas being taught including "cisheteropatriacrchy" and the term "hrxstory". Teach tolerance, love and acceptance and understanding. But your version of ethnic studies is grossly skewed in one direction and lacks credibility for anything other than indoctrination. The language used is made up, if not obscure and is ideologically completely one-sided. Today's requirements for school to prepare kids academically for college needs more time, not less. Stop adding on these diversionary lessons.

California Department of Education, June 2019
