Copenhagen Calling California to Combat BDS

Dear Sir

I am writing to you from Europe (Copenhagen, Denmark) to further encourage you to combat anti-Semitism and BDS. Apparently, the situation within the California public school system is so bad, that European Jews fear the repercussions of American anti-Semitism.

Please understand that all Jewish Institutions in Denmark are already under 24 hour Police and Military protection following multiple lethal anti-Semitic terror attacks.

Many Anti-Semitic terrorists become radicalized in Schools and Universities that promote BDS.

Yours Sincerely

Dr. Niels Levi, MD Ph.D.
