Subject: Comment on program

As a resident of California, and one who believes in tolerance for all people, I am disheartened to know that you were planning to mandate a program of ethnic studies that unfairly represents the stories of some ethnic groups, or does not tell their story at all.

I am writing in opposition to the program as it now stands and I would hope going forward that you would find a process for review that would avoid these types of issues in the future.

Sincerely,

Lorraine Rose-Lerman
