**Subject:** INCLUSION OF ARAB AMERICAN STUDIES

*TO WHOM IT MAY CONCERN:*

*Including Arab American studies in curriculums taught in California is more vital now than ever before.*

*Not just studies of Arab history and culture, but also of other minorities who are being marginalized now in our country.*

*It is the only way to train our children to be not only tolerant of other cultures, but also appreciative of others' histories and contributions to humankind.*

*Thank you.*

*Therese Mughannam*
