

Hello my name is Byron Sayre. I am writing in regards to the ethnic studies curriculum that you are trying to implement on my children. If you do implement it my children will not be participating and I will be seeking legal counsel. Trying to implement a curriculum that pushes radical leftist the BDS movement that is anti semantic, celebrates the cop killer Assata Shakur who fled to Cuba, It tells my children that Israel does not have a right to exist. This curriculum says that capitalism is racist. This is racist, radical and downright dangerous. I am a military veteran and a firefighter for 23 years. I serve the the public. This is indoctrination and will not be tolerated. I have spoke to an attorney and I am willing to fight this to the bitter end. Lets teach children mathematics, English, science and stop this radical leftist ideology.
