Subject: Concerned about Biased Curriculum with Anti-Jewish Slant

To:

Dear Instructional Quality Commission of the California Board of Education,

As a college student at UC Berkeley in the 90's, I had the great fortune of taking multiple Ethnic Studies courses as part of my Sociology major. Those classes, which introduced me to struggles and concepts that have shaped who I am today, were invaluable. And while I am a huge proponent of teaching Ethnic Studies to high school students, I share the concerns and recommendations of the California Legislative Jewish Caucus' letter. I am alarmed and disturbed by the anti-Jewish bias that has been woven into the model curriculum and I strongly encourage you to **make major revisions or significantly rewrite it.**

Please do not allow something intended to be so positive, to alienate so many.

Thank you,

Jen Wolosin
