In 1968 there was a shutdown of SFSU which lasted 5.5 months. It was engineered by the Nation of Islam which preaches extreme Jew hatred. When the police chief came to the president of the university and said that he could no longer afford to have his officers on campus every day trying to keep classes open the president capitulated to the demands of the "protesters." This sent a message across the nation and the world that if you want to keep your university open you must teach the philosophy of the Nation of Islam. After more than 50 years of this indoctrination they have succeeded in inculcating this philosophy into many students who now believe that America and Jews are irredeemably evil and deserve to be destroyed. This is what motivates Lynn Mahoney to defend the teaching of terrorism to American students. She just wants to keep SFSU open. That is her job after all.
