

Hello!

My name is Ariel and I'm a High School student in Santa Clara, California. My brother Dan is in Elementary school. We moved from Israel six years ago. I'm interested to learn about the different communities in California, but why was only the Jewish minority discriminated against and excluded from the curriculum?

Also please don't single out Israel and bring politics into our classroom. BDS (Boycott, Divestment, and Sanctions) is a political movement that is banned in many countries and anti-BDS measures were taken in many states in the US. I believe that teaching about BDS without the proper context and balanced perspective is wrong and will create an unsafe environment for me and other Jewish and Israeli students in my school. I don't want to be boycotted.

Thank you for considering my comments!
