Subject: [EXTERNAL] Response to your new Ethnic Studies Curriculum

Dear Ethnic Studies Curriculum Committee:

As a longtime resident taxpayer in Los Angeles, and as a retired University academic whose children attended and graduated from LAUSD schools, I am understandably concerned about the political biases and critical omissions that still exist in your current proposal for an Ethnic Studies Curriculum. While I commend you for the improvements that you made in response to the thousands of critical comments submitted by the public and the scathing critique published by *Los Angeles Times* last year, I feel that there are still important changes and improvements that I would urge you to undertake. Toward this end, please see my letter that I am attaching to this email.

Thank you for your consideration of these critical issues!

Respectfully,
Susan Ehrlich, Ph.D.
