Subject: [EXTERNAL] More Jewish references Ethnic Studies curriculum

I write as a teacher, parent and a Jew.

Thank you for including the 2 lessons in antisemitism in the new ethnic studies curriculum. I face this issue at work as a teacher.

We should address this at all grade levels.

Please include BINAH-Building Insights to Navigate antisemitism and Hate

This portion guides students as to what to do when they experience this?

I barely know what to do myself, especially when facing this issue.
