Dear Soomin Chao,

As a woman who lost many members of her family to the Holocaust, I respectfully implore you to support our community in protesting the Ethnic Studies Model Curriculum Draft currently being adopted by California school board. This curriculum contains false and harshly anti-Semitic material and will only prove to reinforce ugly, untrue stereotypes about Jews and unfairly single out Israel for criticism.

The Jewish community asks for your help in keeping the American public school system free of prejudice and hate. Thank you, sincerely.
