Subject: [EXTERNAL] No to Anti-Semitic curriculum

To Whom it might concern,

The schools boards across the State of California are making a very big mistake to adopt and approve the very bad and anti-Semitic curriculum! It's too dangerous and bothering to see that this evil and vicious curriculum are making his way in schools in California. This curriculum contents highly anti-Semitic positions and hostility towards the State of Israel and its people!! Please review this bad plan and remove this anti-Semitic Curriculum out of schools across California. The Anti-Semitic spirit is unfortunately widely spread in most schools and universities in the State of California. Please pay attention for the worrying and formidable curriculum and remove it as soon as possible!!

Yours Sincerely
M.Tabrizizadeh
