

To Whom it may concern:

The thought that ethnic studies would include many Anti-American subjects is reprehensible!!! Please think over the inclusion of material that is Anti-Semitic and Anti-American. We need to be a united country again and dividing us into little groups that are fighting against one another is the best way to “kill the goose that laid the golden egg”!!!! Please rethink your inclusion of these materials in your choices for curriculum in the Public School system.

Sincerely,

Linda G Ray
