Subject: STOP NEW Ethnic studies curriculum

Please stand back and review curriculum carefully. A discussion of ethnic studies is of course important, but the OVERT oMISSION of the word /concept/ reality of ANTI-SEMITISM From even the glossary of terms makes it very clear that this is a completely biased, pro-Palestinian and left-wing curriculum outline.

It is factually inaccurate and merely continues the non-factually based ideas of the BDS movement.

PLEASE use your common sense. I am sure those in charge know exactly the anti-Semitic end of this curriculum.

Sincerely,

Lauren G. Ficks,, MD
