Subject: [EXTERNAL] IQC Public Comment on ESMC

My name is Dr. Suzie Oh.
I represent the IKEN (International Korean Educators Network).

Korean Americans have been in the United States since 1903 for 117 years.

It is crucial that students learn about the struggles and the contribution of Korean Americans.

I am here to support the API School Board Members Association's position to add four more lesson plans for Korean Americans, Japanese Americans, Vietnamese Americans and Indian Americans. I would also like to see a Comparative Studies in Race and Ethnicity unit in Appendix B, like they organize at Stanford University's Ethnic Studies Program

Thank you..

Dr. Suzie Oh
Educational Consultant
