Yesterday, Iran executed Navid Afkari, an Iranian wrestling champion, for the crime of protesting against the Islamic regime at a street protest.

Democratic nominee Joe Biden tweeted against Iran's action, but Miss Iraq was quick to highlight Biden's hypocrisy, placing the blame squarely on Biden, and Obama, for empowering Iran during their administration.

Miss Iraq's tweet puts a spotlight on the fundamental difference between President Trump's Iran policy and the Obama/Biden policy, that would return if Biden gets elected.

As Iran remains a major destabilizing force in the Middle East to the whole freedom-loving world, everyone who will be voting in the upcoming 2020 elections should watch this video to better understand.

Misunderstandings of 9/11 Still Plague America Today

I remember 9/11 as if it was yesterday when I was living and working in New York City. Unfortunately, not only is the world NOT a safer

place since 9/11, it is considerably less safe today.

Unfortunately, even the United States of America still hasn't internalized the ultimate purpose of the 9/11 attacks and it still plagues America today.

In memory of all those who were murdered that day, and in tribute to all the first responders who showed humanity that not all supernatural heroes come with capes.

Please help share this video with everyone you can in their memory and tribute.
