Subject: [EXTERNAL] No Ethnic Studies Model Curriculum for high school students

Hi,

I am a parent of a high school student and a junior high school student. I heard there will be a **Ethnic Studies Model Curriculum** for high school students and I want to express my concern here. What I learned that the ESMC imposes on students a one-sided extreme political ideology a divisive us-versus-them framework. It exacerbates polarization, inculcates an anti-capitalist agenda, and opens the door to antisemitism and other hatred.

This is a racist curriculum, I do not want it to be taught in our high school.

Best Regards

Sha Zhu
