I feel I live in an alternate universe because it seems to me that no one else realizes the seriousness of what occurred last week. President Mahoney, Professor Rabab Abduhadi and Professor Tumomi Kinukawa have been referred for PROSECUTION for a violation of the Patriot act. If convicted they face not only large fines, but also jail time. And so far there has been no response from the CSU, the President of SFSU or the professors. What can they do? They could start by apologizing for having given material support to the PFLP for many years. They could also begin to fulfill the promises they made in the settlement agreement of the Lawfare Project lawsuit a year ago. Of course there is much more they need to do to correct the climate of antisemitism that has pervaded this campus for many, many years, but this would be a start.
