Subject: [EXTERNAL] P.S. in case you didn't receive my first note

The reinserted section contains insufficient information about antisemitism, and misleading information about the roles of Jews in America. As a former teacher, I know how important it is to give students enough data for them to work through the difficult questions they will encounter in their required Ethic Studies course; and in their lives after high school.

Please immediately remove the August 12 reinserted section on Arab Americans and start the process of creating a more balanced section which discusses honestly and clearly the relationship between Arabs and Jews, and the topic of antisemitism.

Thank you -- Ann Levenstein Mound
