**Subject:** antisemitism and anti-Israel is targeted in the biased curriculum being proposed

As an American Jew and resident of California since my birth, I am horrified at what is being proposed. I never would have thought that any government in the United States would proposed such a hostile and biased propaganda driven against Jews and their historical homeland. It is deeply hurtful but worse than that, it is alarming.

It is factually wrong.

I have been to Israel 5 times in the past 4 decades. I have studied Middle East history in UCLA and at Berkeley as an undergraduate. I scored top A's grades.

The closed-minded "curriculum" is totally presenting a false picture and will harm young minds.

You are creating a future electorate which will be taught to hate the State of Israel and Jewish-americans.

Please DO NOT APPROVE THIS ANTI-SEMETIC PACK OF LIES!!!

Sincerely,

J. Markman
