Subject: Jews are ethnoreligious group, Palestinians meet none of the criteria

Seriously you are sprouting propaganda and ignoring facts, hardly educational !  
Even the name Palestinian, which Arabs can't pronounce, they use a B instead of P Is  
lifted from Jewish history.

Jews have separate language , food, land claims in Judea, customs , religion  
"Palestinians" speak Arabic , have same food, religion and their land claims are from  
the Arabian peninsula , meaning they are run of the mill Arabs, not a separate ethnicity  
Deal with it.
