Subject: Against this agenda

I respectfully ask you to not mandate this in our schools. I have many grandchildren who are school age and we will pull them from the public school system if this passes. Capitalism is not a form of racism and this is what our country was and should be all about.

Teaching antisemitism is wrong! I'm fed up with California and will move to a different state. We are saddened and sickened by the way California is running and is headed. Enough already! From a Mexican American/ Native American woman!

Thank you,
Laura and family
