

CF&IR Division,

Liz Wheeler reported on OAN newscast that the California Legislature is enacting ethnic studies in California Schools that encourage the same agenda of the left wing fanatics in the U.S. Congress, namely Talib, Omar and AOC.

I find this absolutely disgusting and very unamerican, and as a taxpayer supporting our school system in this state, am recommending this program be halted and destroyed.

The California Governor and Legislature need to stop hating the President of The United States of America and work toward improving Californian's lives.

Sincerely,

Les Hathaway
