Subject: Concern Regarding Bill

To Whom It May Concern:

I am writing to express my utter disgust and disappointment at the radically anti-semitic curriculum being proposed in this state. As a Jewish American, I face constant anti-semitism. I assure you that Jews in America do not need young people to grow up being taught ignorant and naive views that lead them to an anti-semitic point of view. Furthermore, this curriculum espouses ignorance in favor of the truth, and makes no effort to highlight the anti-semitism that Jews face in California on a constant basis.

You should be ashamed of yourselves. Anybody involved with drafting up this curriculum is a raging anti-semite. You all condemn racism--but it is you who are the racists.

Sincerely,

Matthew Fisch
