Subject: [EXTERNAL] Your ethnic studies curriculum is limited biased and ultimately among other things....Antisemitic

A curriculum that lauds antisemites with little academic background eg Linda Sarsour denigrates an attempt at education and fairness.

Your exclusion of the Jewish or Armenian experience underlines your lack of true education regarding ethnic concerns . Your students will be the poorer and their lack of fair and unbiased information will Breed further racism and antisemitism.

I am disappointed in California's stance.

Harris L. Cohen, MD
