Subject: [EXTERNAL] Object to Demands

Why and how is this possible?
Have you forgotten the demands of
a fellow named Hitler? How quickly powerful people demand, however discreetly, change to what is written,
to the new "woke" opinion.
What's to become of our country to force their Agenda by rewriting
American history?
What about religious freedom?
If you revise history, You reshape our
history based on false claims.
These new ideas bring more separation and cause more precious.
