Subject: [EXTERNAL] Radical Anti-Israel Curriculum

California Instructional Quality Commission
Soomin Chao:

I am deeply troubled to learn that a radical anti-Israel curriculum is being introduced into the California school curriculum. Is a radical critique being introduced into the curriculum against China for rounding up Muslims for forced conversions or for violently subduing Hong Kong? And what of Russia and Iran are they being attacked for tearing apart Syria? Singling out Israel as the source of world evil is a Medieval Jew-hating practice.

What is the difference between Jews escaping persecution by the Europeans to Israel and the recent migration of millions of Muslims to Europe. Most experts agree by the end of this century Europe will be a Muslim world. The only differences between the migrations are that Jews escaped to a land where there has been a continuous Jewish community since ancient times only to be faced with a people that sided with the Nazis during World War II and like the Nazis are intent upon eliminating them.

Population transfers are a reality of this world. Are white Americans going to return to Europe? Palestinians were offered 95% of their demands several times in the past and refused to make peace. Are they going to be criticized for warmongering?

I think not. I do not believe the Israel side will be presented at all in the curriculum. This is indoctrination not education. If you insist on indoctrinating students to be advocates of a Palestinian war against the Jews, I will be forced to join with other concerned individuals and organizations and take legal action against the California school system.
